MR Echo Accumulation

✅ Purpose

Use the Echo Accumulation package offered on the IntelliSpace Portal to cumulate multi echo sequences into one data set. This provides an image with exceptional Signal to Noise Ratio (SNR) and contrast to noise ratios.

This Quick Steps provides an optimal workflow scenario. Please keep in mind that this application has additional workflow steps and functionality, which are detailed in the Instructions for Use and is not intended to substitute or replace the Instructions for Use.

🔄 Before you begin

Valid imaging series

The Echo Accumulation application requires the data set to have two or more echoes acquired.

Workflow

To create a MR series with cumulated echoes:

1. Set the range of echoes for accumulation by dragging the ends of the Source range bar.
2. Click **Generate Series**
3. In the **File Name** field, type a name for the series.
4. Click **Generate Series**
